

Parachute Health + eClinicalWorks Integration

Simplify DME ePrescribing at the Point of Care

Clean Orders

Transparency into payor requirements for clean, complete orders.

Digital Communication

A modern customer experience saves time on phone calls.

Status Updates

Visibility into order process, real-time updates for clinicians and patients.

"We don't have to enter the patient's information... it populates in the app and we can track it in Parachute and the patient chart."

— Healthstone Primary Care Partners
